

Why Consider a
Barrier Management Program

- > **Organized approach to asset management**
- > **Predictive vs. Reactive management style**
- > **Consistent with Preventative Mx approach** (vs. Reactive Mx)
- > **Perform the optimum corrective action in the most efficient manner**
- > **Barrier life-cycle extension**
- > **Excellent for monitoring work history, forecasting and budgeting**
- > **Consistent with multi-year capital budgeting process**
- > **Provides predictable costs to improve budget management**
- > **Satisfies Warranty requirements**
- > **Allows owners to receive the full value of their barrier asset**
- > **Web-based for easy access**
- > **Can be sub-divided by Area / Cost Center / Management Group / Site / Corporation**
- > **Indifferent to employee turnover**
